

COVID 19 Update
26th May 2020

Covid 19 update 26th May 2020

COSRT remains in lockdown and we are being told to work from home wherever possible and maintain physical distancing from other people. Our advice continues to be that wherever possible clients and therapists do not risk theirs' and others' health by delivering/receiving therapy or supervision face-to-face where other options are available. Therapists must apply their professional judgement and refer to their insurers and, where applicable, their employers.

For more information visit [NHS website](#) and the [GOV.UK website](#) also has up-to-date information about the situation in the UK.
